## Title 9: Commerce and Trade

### *Chapter 77: Smoke Detectors and Carbon Monoxide Detectors*

#### 2881. Definitions

##### § 2881. Definitions

For the purpose of this chapter:

(1) "Single-family dwelling" means any building or structure in which a family, families, or households reside that contains sleeping facilities and is not otherwise classified as a "public building" as defined in subsection 2730(a) of Title 20 or as a "condominium" or "multiple unit dwelling" as defined in subsection 2729(d) of Title 20.

(2) "Smoke detector" means a device that detects visible or invisible particles of combustion and sounds a warning alarm is operated from a power supply, within the unit or wired to it from an outside source, and is approved or listed for the purpose by Underwriters Laboratory or by another nationally recognized independent testing laboratory.

(3) "Carbon monoxide detector" means a device with an assembly that incorporates a sensor control component and an alarm notification that detects elevations in carbon monoxide levels and sounds a warning alarm, is operated from a power supply within the unit or wired to it from an outside source, and is approved or listed for the purpose by Underwriters Laboratory or by another nationally recognized independent testing laboratory. (Added 1993, No. 86, § 1; amended 2005, No. 19, § 1, eff. July 1, 2005.)

#### **2882. Installation**

##### **§ 2882. Installation**

Subsection (a) effective before January 1, 2009; see also subsection (a) set out below.

(a) A person who constructs a single-family dwelling shall install one or more smoke detectors, and one or more carbon monoxide detectors in the vicinity of any bedrooms in the dwelling in accordance with the manufacturer's instructions. In a dwelling provided with electrical power, detectors shall be powered by the electrical service in the building and by battery.

Subsection (a) effective on or after January 1, 2009; see also subsection (a) set out above.

(a) A person who constructs a single-family dwelling shall install photoelectric-only-type smoke detectors in the vicinity of any bedrooms and on each level of the dwelling, and one or more carbon monoxide detectors in the vicinity of any bedrooms in the dwelling in accordance with the manufacturer's instructions. In a dwelling provided with electrical power, detectors shall be powered by the electrical service in the building and by battery.

Subsection (b) effective before January 1, 2009; see also subsection (b) set out below.

(b) A single-family dwelling transferred by sale or exchange shall contain one or more smoke detectors and one or more carbon monoxide detectors powered by the electrical service in the building or by battery, or by a combination of both, and installed in accordance with the manufacturer's instructions.

Subsection (b) effective on or after January 1, 2009; see also subsection (b) set out above.

(b) Any single-family dwelling when transferred by sale or exchange shall contain photoelectric-only-type smoke detectors in the vicinity of any bedrooms and on each level of the dwelling installed in accordance with the manufacturer's instructions and one or

#### **2883. Requirements for transfer of dwelling**

##### **§ 2883. Requirements for transfer of dwelling**

Subsection (a) effective before January 1, 2009; see also subsection (a) set out below.

(a) The seller of a single-family dwelling, whether the transfer be by sale or exchange, shall certify to the buyer at the closing of the transaction that the dwelling is provided with one or more smoke detectors and one or more carbon monoxide detectors in accordance with this chapter. This certification shall be signed and dated by the seller.

Subsection (a) effective on or after January 1, 2009; see also subsection (a) set out above.

(a) The seller of a single-family dwelling, including one constructed for first occupancy, whether the transfer is by sale or exchange, shall certify to the buyer at the closing of the transaction that the dwelling is provided with photoelectric-only-type, smoke detectors and carbon monoxide detectors in accordance with this chapter. This certification shall be signed and dated by the seller.

Subsection (b) effective before January 1, 2009; see also subsection (b) set out below.

(b) If the buyer notifies the seller within ten days by certified mail from the date of conveyance of the dwelling that the dwelling lacks a smoke detector or a carbon monoxide detector or that either detector is not operable, the seller shall comply with this chapter within ten days after notification.

Subsection (b) effective on or after January 1, 2009; see also subsection (b) set out above.

(b) If the buyer notifies the seller within ten days by certified mail from the date of conveyance of the dwelling that the dwelling lacks any photoelectric-only-type, smoke detectors or any carbon monoxide detectors or that any detector is not operable, the seller shall comply with this chapter within ten days after notification.

(c) Violation of this section or of the installation requirements of section 2882 shall not create a defect in title. (Added 1993, No. 86 § 1; amended 2005, No. 19, § 1, eff. July 1, 2005; 2007, No. 180 (Adj. Sess.), § 3, eff. May 29, 2008.)
